

GBP Deposit Rates

Information correct as at 19/02/2018

The rates shown for various account types are as advised to Canada Life International Limited ("CLI") by the relevant institutions **as at the above date** and are for indicative purposes only.

CLI will not be responsible for issuing reminders as and when time deposits mature, or if Call or Notice rates change; it is the responsibility of the investor/Fund Advisers to monitor such rates. The inclusion of institutions within this document is not an endorsement. Any investor wishing to link their investment to any of the Institutions detailed should undertake their own due diligence.

Where possible, capital plus interest will always be repaid on maturity of a fixed deposit with proceeds credited to the policy's cash account. However, CLI strongly recommends that you seek clarification of a provider's maturity repayment criteria before selecting a suitable fixed deposit account.

You should be aware that we may not be able to release the investor's funds before the end of the fixed term and that the provider may levy a charge for any permissible release of funds. As a result, CLI recommends that you seek clarification of any restrictions or charges from the relevant provider before linking the policyholder's investment.

Please note that deposits must be in the same currency as the policy's base currency, unless the policy held is a Personalised Bond.

All interest rates are quoted Gross (not subject to the deduction of income tax) and annualised.
