

Additional Borrowing

Interest Rates

Here you can find:

- Cash reserve facility withdrawal interest rates
- Further advance interest rates

A fixed interest rate will be applied to each cash reserve facility withdrawal or further advance, based on the prevailing cash reserve facility interest rate or further advance interest rate on the product at the time you apply. This interest rate may be higher or lower than the interest rate which is applied to your initial advance. Each time you apply for additional borrowing, we will send you an Offer which will advise of the current interest rate.

The rates for both cash reserve facility withdrawals and further advances are listed below.

These rates are correct as at 8th December 2020.

Cash reserve facility withdrawals

Current product range	MER	AER
