

The Retirement Account

Technical Summary

The Retirement Account is a Self-Invested Personal Pension Scheme that allows regular and/or single contributions as well as pension transfers for fund consolidation. The product can be used for accumulation and/or decumulation purposes with the latter under flexi-access drawdown rules. You can select an annuity component that sits within the drawdown wrapper thereby providing added flexibilities over and above those allowed with a conventional lifetime annuity. It is an advised only product and advisers must be appropriately registered with the FCA and hold relevant qualifications.

Investment fund information

The Retirement Account offers a flexible, competitively priced, conveniently structured, extensive choice of investment options, available to mix and match in any combination. The same range of funds is available to Pension Savings and Pension Drawdown but different fund choices can be made for each. Income can be drawn from a specified fund, or from all funds proportionately.

Core Range

The aim of the Core Range is to provide an insured, multi-asset, globally diversified, low-cost fund proposition utilising the expertise of Canada Life Asset Management that can be used for supporting wealth accumulation as well as income drawdown and/or capital preservation in retirement. To provide choice and flexibility to blend across different fund managers, the Core Range also includes 14 exclusive multi-asset funds using the investment expertise of RBC Brewin Dolphin.

Governed Range

The aim of the Governed Range is to provide a 'best in class' selection of single asset/strategy and multi-asset insured funds that have been carefully selected through a governance framework in conjunction with external specialists Square Mile Investment Consulting and Research.

Extended Range

The aim of the Extended Range is to deliver a comprehensive, industry-wide selection of non-insured funds, providing broad exposure across sectors and markets.

Fund Research Centre

We provide access to a comprehensive fund centre with daily unit prices, performance information, fund fact sheets and tools that allow you to quickly view funds, compare funds and complete in-depth analysis.

Model Portfolio Manager Tool

In addition we provide a model portfolio manager tool where you can create, amend and close model portfolios, add or remove clients to/from models, perform ad-hoc rebalances or set up regular auto rebalances for individual clients.

Ongoing Charge Figure (OCF)

Each fund will have an Ongoing Charges Figure. The OCF is the cost of investing in the fund including the fund managers' fees, and is accounted for within the unit price (available on our website). We aim to publish the OCF annually. For a full list of all OCFs please visit the Fund Research Centre on our website: <https://fund-research-centre.canadalife.co.uk>
