Cover options

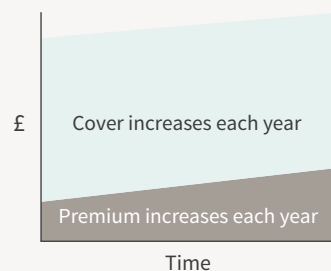

At a glance

Life Insurance Level

Level term – the amount you pay and the amount of cover stay the same from the start to the end of your policy.

Life Insurance Increasing

You can choose to increase the amount you pay each year. Your amount of cover then rises, which helps your Life Insurance keep up with price increases for everyday goods and services.

Life Insurance Decreasing

Decreasing term – the amount you pay stays the same, but has a lower starting point. This is because your amount of cover goes down from the start to the end of your policy.
